## THE BIG BLUE BALL - REAL

Real World Records are launching a new cd called The Big Blue Ball. Its a compilation of tracks made over a couple of years in the '90s at the Real World Recording Week in Wiltshire at Peter Gabriel's studios. Juan Martín participated in the recording week in 1992 and made the track called 'Shadow' which is being released on the Big Blue Ball.

Unfortunately, the track has been wrongly attributed to another guitarist on the album cover! However fans of Juan Martín will recognise his Rumba Nostálgica as the background of the whole track. He is joined by the African Group Papa Wemba who do the vocals.

Hopefully, on the reprint they will correct their mistake.
